

## **STATEMENT OF PRINCIPLES**

### **Nuclear Security Contact Group**

The Nuclear Security Summit process has led to significant achievements in nuclear security at national, regional, and global levels; but the work of building a strengthened, sustained, and comprehensive global nuclear security architecture – consisting of legal instruments, international organizations and initiatives, internationally accepted guidance, and best practices – requires continuous attention.

We need sustained action and ambition on nuclear security after the 2016 Nuclear Security Summit to address continuing and evolving nuclear security challenges, with the objectives of advancing implementation of nuclear security commitments and building a strengthened, sustainable and comprehensive global nuclear security architecture.

The Governments of Argentina, Armenia, Australia, Belgium, Canada, Chile, China, Czech Republic, Denmark, Finland, France, Georgia, Germany, Hungary, India, Israel, Italy, Japan, Jordan, Kazakhstan, Lithuania, Mexico, Morocco, the Netherlands, New Zealand, Nigeria, Norway, the Republic of Korea, Romania, Poland, Singapore, Spain, Sweden, Switzerland, Thailand, Ukraine, the United Arab Emirates, the United Kingdom, the United States, Vietnam, and the following international organizations: INTERPOL and United Nations, aiming to facilitate cooperation and sustain activity on nuclear security, and commit to designate an appropriately authorized and informed senior official or officials to participate in the Contact Group.

The members of the Contact Group will:

- Convene annually on the margins of the General Conference of the International Atomic Energy Agency, and, as may be useful, in connection with other related meetings;
- Discuss a broad range of nuclear security-related issues, including identifying emerging trends that may require more focused attention;
- Promote and assess implementation of nuclear security commitments, including those made during the Nuclear Security Summit process, reflected in the four Nuclear Security Summit Communiqués, the 2010 Washington Work Plan, the 2016 Action Plans, national commitments and associated joint statements, and gift baskets;
- Develop and maintain linkages to nongovernmental experts and nuclear industry; and,
- Determine any additional steps that may be appropriate to support these goals.

The Contact Group members may also consider and make recommendations to their respective leaders on convening any future Nuclear Security Summits.

We welcome the participation of all countries that subscribe to the goals set out in this Statement of Principles and wish to contribute to the work of the Contact Group.
